Batch Code B

The Batch Code is based on the production year.

- First 2 numbers = last 2 digits of the production year
- Last 4 numbers = 4-digit sequential number

A typical batch number would be similar to 220581 representing the 0581 lot of product manufactured in 2022.

Batch Code C

Ingredion uses a 10-character code to identify some lots or batches of HOMECRAFT® Pulse Flours and VITESSENCE® Pulse Proteins. The first 5 characters are AGT-M, followed by a 5-digit sequential number.

A typical batch number would be similar to AGT-M10000.
